Ten years of elected public service including five months as Acting President of the Village of Glen Ellyn. This service provides me with a unique opportunity to understand what needs to be advocated for residents and businesses of DuPage County. We must advocate for making our County Government a more effective and efficient body as I have in Glen Ellyn, continue to invest in essential services, especially for seniors and those in need, promote economic growth, improve our infrastructure, and strive to keep our residents safe as well as our deputies. I pledge to work with all board members, listen to all residents' and groups' points of view, and work to converge differing viewpoints into a decision that benefits all DuPage County residents, not just a few.
